OUTREACH INFORMATION

The District evaluated compatible control platforms, and Rockwell Automation and Schneider Electric were identified as the recommended control platforms for the Conveyance SCADA system. Both systems are capable of supporting the District’s communication protocols, have strong regional support, and are widely used by technicians and system integrators familiar with District operations. As a result, the solicitation was directly shared with these vendors, although responses were not formally restricted to them.

Additional Comments:

The District conducted RFP TS-2743 to select PLC hardware for the Conveyance SCADA System, in which Revere Electric Supply Company was the highest-ranked proposer. Rather than establishing a separate purchase agreement resulting from this RFP, the District proposes modifying the existing agreement, Contract TS-2723, with Revere Electric Supply Company to incorporate this additional scope and maintain a single agreement for Rockwell PLC hardware across District facilities.
