

COMMISSION FILE NO: 25-111-9 **DATE INTRODUCED:** September 8, 2025

INTRODUCED BY: Executive Director (Signature on File in the Office of the Commission)

REFERRED BY COMMISSION CHAIRPERSON TO: Operations Committee

RELATING TO: Award of Contract M10004C11, Closed Circuit Televising of Post Rehabilitation Lateral Sanitary Sewers – 2025

SUMMARY:

The Commission is requested to award and to direct the Executive Director to execute on behalf of the District Contract M10004C11, Closed Circuit Televising (CCTV) of Post Rehabilitation Lateral Sanitary Sewers – 2025, to Visu-Sewer, LLC, in the amount of \$1,017,241. Visu-Sewer, LLC, was the lowest responsible, responsive bidder of the two bids received.

As part of the Private Property Infiltration and Inflow (PPII) Reduction Program, the District conducts quality assurance/quality control work to ensure the work completed by the municipalities and funded by the District is performing as designed and promised to homeowners. CCTV inspection of laterals that have been rehabilitated through the program has typically been completed on an annual basis.

Contract M10004C11 will complete CCTV in 789 laterals that were rehabilitated under the PPII program. All lateral inspections shall be accessed remotely from the mainline sewer with a lateral evaluation televising system, enabling the completion of the inspection without home entry. The District will review all inspections, and any defects that are identified in laterals under warranty will be referred to the municipality in which the property is located to implement corrective action with the contractor that completed the work.

The work is anticipated to begin in November 2025, with a contract duration of 200 working days.

The proposed contract value is about \$14,000 more than the engineer's estimate and still within the overall project budget.
