

COMMISSION FILE NO: 26-017-1 **DATE INTRODUCED:** January 12, 2026

INTRODUCED BY: Executive Director (Signature on File in the Office of the Commission)

REFERRED BY COMMISSION CHAIRPERSON TO: Policy, Finance, and Personnel Committee

RELATING TO: Award of Contract P-3296 for the Purchase of Laboratory Analysis Services

SUMMARY:

The Commission is requested to award and to direct the Executive Director to execute on behalf of the District Contract P-3296, Laboratory Analysis Services, with Eurofins Environment Testing North Central, LLC, (Eurofins Chicago) in an amount not to exceed \$720,000. Eurofins Chicago was the highest scoring proposer based on a qualification-based selection method among three proposals received.

The District has a need for analysis services for its Wisconsin Pollutant Discharge Elimination System permit, facility planning, and special projects that cannot be performed internally. The District's Central Laboratory needs assistance from outside laboratories for testing that is beyond its accreditation and when staffing levels are limited. The scope of services includes organic and inorganic analyses testing.

Since the District's testing needs are varied, no single laboratory qualified for all the tests needed. Eurofins Chicago will handle most wastewater and surface water samples that require subcontract analysis, testing for air emissions permit, and testing Milorganite® for polychlorinated biphenyls.

All three laboratories were qualified and provided costs for testing on a unit price basis. The two other responsive laboratories will receive contracts for tests for which Eurofins Chicago is not accredited or cannot perform. Those two contracts do not require Commission approval and may be used to provide other analyses or to accommodate instances where Eurofins Chicago does not have enough analytical capacity.

The contract duration is three years.
