List reason(s) if no MBE/WBE/SBE involvement:

Local Office Preference: Yes

Proposal Comments : There is a \$60,000 allowance for physical hydraulic modeling under this contract. Both Arcadis and CDM Smith have proposed a SWMBE firm to do this work. The allowance is the District's best estimate for the amount of work that will be necessary under the contract, however the final amount of work will be determined after a portion of the engineering design is completed. At that point, the actual amount of SWMBE participation may increase or decrease, depending upon the final amount of effort jointly agreed to between the District and the Consultant.
