

**COMMISSION FILE NO:** 21-138-10 **DATE INTRODUCED:** October 11, 2021

**INTRODUCED BY:** Executive Director (Signature on File in the Office of the Commission)

**REFERRED BY COMMISSION CHAIRPERSON TO:** Operations Committee

**RELATING TO:** Approval of a Change Order to Project G98005P39, 2021 Green Solutions Program, Wauwatosa 2020 Green Alleys

**SUMMARY:**

The Commission is requested to authorize the Executive Director to approve and execute a change order to Project G98005P39, 2021 Green Solutions Program, Wauwatosa 2020 Green Alleys, in a total amount not to exceed \$76,000. The 2021 Green Solutions Program funding was allocated in the approved 2021 Capital Budget.

The primary goal of the Green Solutions Program is to support the District's Wisconsin Pollutant Discharge Elimination System permit goal of providing green infrastructure (GI) retention capacity of 50 million gallons. Additionally, this program helps to form mutually beneficial partnerships to generate quantitative data on the effectiveness of GI in managing stormwater runoff in the District's service area and qualitative data on the implementation and feasibility of various GI practices. Projects funded through this program support the District's 2035 Vision and implementation of the District's Regional Green Infrastructure Plan (2013), Urban Biodiversity Plan (2018), Resilience Plan (2019), and 2050 Facilities Plan (2021).

Wauwatosa will replace five typical city alleys with green alleys. The green alleys will have a 12-foot-wide strip of porous pavers down their center. Surface water flow will drain through the voids in the pavers to an aggregate storage area beneath. Depending on soil conditions, water will either infiltrate the native soils or be routed by an underdrain to the storm sewer system. Wauwatosa will install a total of 16,590 square feet of porous pavers which will capture 49,770 gallons.
